

Custom Manufactured Evaporator Coils

- Any Quantity, order 1 or more.
- Made to your dimensions and specifications.
- Fast Delivery

HOW TO ORDER:

- 1) Provide accurate dimensions, drawings, or a sample coil.
- 2) Specify copper tubing diameter: $\frac{3}{8}$ in., $\frac{1}{2}$ in. or $\frac{5}{8}$ in.
- 3) Specify number of fins per inch.
- 4) Specify the number of coils you are ordering.

Standard construction for food service refrigeration is either $\frac{3}{8}$ in. or $\frac{1}{2}$ in. copper tubing and aluminum fins, spaced 6 or 7 per inch. Standard header plates are galvanized steel or heavy gauge aluminum.
